Amazing Spicer Jeep Performance in Africa

The Ultimate Dana 60™ crate axle finally hits the South African shores. The build was initiated and done by the Dana representatives in South Africa.

Firstly, this was extremely challenging to build a Jeep that would measure up to the same exacting standards of the Dana Jeeps that are already running the Ultimate Dana 60™ crate axles in the United States.

The actual build took some time, but the final product turns heads on and off-road. The ultimate Dana Spicer Jeep initiates great conversation with customers new and old and South Africa now has the best-looking Jeep on the continent.

The Dana Spicer Jeep will be used for marketing and customer events across South Africa promoting Dana and Spicer products working to further Dana's longstanding legacy in innovation performance, durability, quality and service.

All Jeeps have a dream once they come off the assembly line and that dream is to have the Ultimate Dana 60™ crate axle fitted.

The Dana Spicer Jeep has now found itself a new home in the African bush. Now ask yourself why is your Jeep not fitted with the Ultimate Dana 60™ crate axle?
