Press Information

Dana Manufactures Spicer® Products for Award-Winning Jaguar Vehicles

The Spicer® brand produces original equipment parts specifically engineered for three award-winning Jaguar SUVs and cars. The precision driveline components are manufactured for Jaguar's F-PACE, XE, and XF to assist in the vehicles' superior performance.

At the 2017 World Car Awards, the Jaguar F-PACE won World Car of the Year and World Car Design of the Year titles. In 2016, the Jaguar XF received Germany's top car award -the Golden Steering Wheel award - for best compact/mid-size car, while the F-PACE took second in the large SUV category.

Also in 2016, the Jaguar XE sports saloon won Euro NCAP's prestigious Best in Class Cars of 2015 award. The XE came in first place in the large family car category after earning a five-star rating from the Euro NCAP the previous year for its highly demanding test protocols.

The Spicer® parts include universal joints that are designed to maximize longevity and car driveshaft assemblies that assist in reducing noise and vibration.

Dana is known for the high-performance capabilities of its products in the original equipment realm. The recognition of these vehicles is also a reflection on the superior performance of Spicer® products, which are built to rigorous standards for dependability and durability.
